Rebecca Wu

(773)-364-0176 | ruochun@uchicago.edu | LinkedIn | Mountain View, CA

EDUCATION

The University of Chicago **Chicago, IL**
B.S. in Computer Science (with honors); Double Major in Economics 2022 - 2026

- **GPA:** 3.9 / 4.0; **Honor:** Robert Maynard Hutchins Scholar (Top 10% GPA), **Magna Cum Laude**
- **Coursework:** Machine Learning, Data Structures & Algorithms, Software Development, Data Engineering

PROFESSIONAL EXPERIENCE

OpusClip **Mountain View, CA**
AI Product Manager June 2026 – Present

- Led the 0 to 1 alpha launch of Agent Opus, OpusClip's **first end-to-end video agent**. Led a cross-functional team of AI engineers, designers, product analysts, and product marketers to drive development and outreach.
- Recruited **50+** seed users (85% activation) and ran user interviews to validate PMF across video quality, agent UX, and editing workflows; turned the findings into a product roadmap and feature A/B testing
- Shipped the Auto SFX feature end to end, a one-click sound effect feature in OpusClip's editor serving ~**300K monthly active users**; identified low SFX quality issues by analyzing user-submitted feedback and feature usage metrics, and increased week-2 retention rate from **7% to 20%** in one month
- Shipped Project Expiry end to end, the subscription lifecycle across Free, Pro, and Max tiers; analyzed usage data across **50K+ users** to set expiry rules and upgrade touchpoints, lifting subscription upgrades by **15%**

Microsoft **Beijing, China**
AI Product Manager Intern March 2026 – June 2026

- Built a Chief of Staff Agent with Microsoft Copilot that reduced PM competitive research time from ~**2 hours to under 30 minutes.** Designed multi-step agentic workflows for information retrieval, cross-source synthesis, and evaluation harnessing across **10+** data sources, including Outlook, Teams, and SharePoint
- Conducted **10+ PM user interviews** and analyzed **50+** task and usage records of PM data in Microsoft Sharepoint. Identified that ~**70%** of competitive research time was spent on cross-source search, filtering, and manual synthesis spanning several months of data collection and product analysis
- Developed a series of Copilot CLI GTM skills encoding task triggers, prompt workflows, and content templates for blogs**,** LinkedIn posts, and internal documentation. Reduced PRD preparation time by ~**50%**

Citi **New York, NY**
Investment Banking Summer Analyst (Financial Strategy Group) Jun 2025 – Aug 2025

- Supported fintech and broader financial-services client engagements, building financial models (WACC, IRR, DCF) to evaluate capital allocation and strategic alternatives for $10B+ market-cap companies
- Led quantitative research on **~1,500** sponsor-backed IPOs, using time-series analysis to identify valuation and leverage trends to present an end-of-quarter research report for senior bankers and clients

RESEARCH & TECHNICAL PROJECTS

Mapier Labs
Founding PM, iMessage-Based Survey Agent *Aug 2026 – Present*

- Led 0 to 1 product launch of Mapier Persona, an iMessage-based survey agent for social science research. Conducted user discovery with academic researchers to identify unmet needs, defined the target customer segment, and drove early adoption among **20+ researchers** from Stanford research labs.
- Owned product requirements and MVP roadmap, translating researcher pain points into an interactive prototype supporting data collection, experiment design, and statistical analysis
- Collaborated with engineering to prioritize high-impact workflows, navigate technical trade-offs, and de-scope nonessential features to **accelerate time-to-market**

Long-Horizon Coding Agent Benchmark

Independent RL Env Research Project Sep 2026

- Built **3-task** reinforcement learning (RL) environments in Harbor format which included: designing a distributed database, reverse-engineering MacOS, and applying global rulesets across a complex codebase.
- Ran evaluations on Claude Sonnet 5, and revealed **3 major gaps** in model reasoning via trajectory analysis, systematic failure categorization, and long-horizon planning,

.

LANGUAGES & SKILLS

Language: English (Native), Mandarin (Native); **Skills:** AI Agents, Agent Evaluation, Agent Harnessing, Agentic Video Generation, Agentic Video Editing, Experiment Design (A/B Testing, Pre/Post Pilot), Project Management (Linear, Jira), Prototype Design, System Design, Databases (SQL/noSQL), Python, JavaScript
